

Draft programme

Please note that this is a draft programme and that enforced changes may still occur as a result of withdrawals etc. Where such a change involves moving a presentation to a different day, all corresponding authors affected will be contacted. Due to the amount of work required for even minor changes to the programme, the scientific committee cannot entertain requests for alterations to the day or time of individual presentations.

EHPS 2024

38th Annual Conference of the European Health Psychology Society

Monday, 02 Sep

Monday, 02 Sep

9:00 - 17:30 SYNERGY Expert Meeting; CREATE workshop

Tuesday, 03 Sep

9:00 - 15:00 SYNERGY Expert Meeting; CREATE workshop; Other Pre-Conference Workshops; Showcase of Local Projects

15:00 - 16:30 Parallel Sessions

Symposium A social relationships perspective on health and well-being
Chair: Janina Lüscher and Corina Berli

- 15:00 Enabling or cultivating? Association between provided social support, self-efficacy, and physical activity in adolescent friends-dyads
Konstantin Schenkel
- 15:15 Positive impact of psychosocial resources on mental health transitions in persons with spinal cord injury
Janina Lüscher
- 15:30 Stress and well-being among persons with spinal cord injury and their caregiving partners
Simone Lüthi
- 15:45 Compendium of Dyadic Intervention Techniques for health behavior change: results from a Delphi study
Karoline Villingner
- 16:00 Discussion
Nina Knoll

Symposium Promoting healthy and sustainable behaviours: From goal-setting to the dinner table
Chair: Katharina Eichin

- 15:00 A qualitative study on goal conflict and facilitation across health and pro-environmental behaviours
Valentina Giovanna Bancale
- 15:15 If it's healthy, it's also sustainable and vice versa? Results of a food label study
Katharina Eichin
- 15:30 The youthful plate: When adolescents promote healthier, more sustainable family meals
Jutta Mata
- 15:45 Live from the table: A qualitative examination of 'in the moment' plant-based consumption
Tess Davis
- 16:00 Activity coordinator
Katharina Eichin
- 16:15 Discussion
Jutta Mata

Symposium The use of Artificial Intelligence to collect, analyse and generate qualitative data in health psychology
Chair: Felix Naughton and Paulina Bondaronek

- 15:00 A pilot study examining the use of conversational AI-powered chatbots to collect qualitative data
Aimee E. Pink
- 15:15 Machine Assisted Topic Analysis (MATA) of open-ended survey responses reporting health and wellbeing during COVID-19
Felix Naughton
- 15:30 Investigating the potential harm of high-grossing health apps using Machine Assisted Topic Analysis
Paulina Bondaronek

15:45 Assessing algorithmic fidelity: framework-based qualitative analysis of free responses of Large Language Models
Aliya Amirova

16:00 Discussion
Robert West

Symposium Breaking barriers: Understanding health disparities through a lens of diversity and gender

Chair: Agnes Effert and Gudrun Sproesser

15:00 Systematic review and critical discourse analysis of research on HIV PrEP programme use among gbMSM
David Comer

15:15 Inequalities in exclusively mobile interventions targeting weight-related behaviours: Systematic review of observational studies
Laura M König

15:30 Using the Diversity Minimal Item Set in Academic Medicine - First Results and Lessons Learned
Gertraud (Turu) Stadler

15:45 Men eat meat, women eat sweet? A systematic review of eating- and food-related gender stereotypes
Agnes Effert

16:00 Discussion
Gudrun Sproesser

Symposium Habit research in action: from measurement and determinants towards intervention development

Chair: Robert Edgren

15:00 Rethinking habit strength: 'behaviour frequency x context stability' and an objective measure of context stability
Madelynne Arden

15:15 Evidence Inhibitory Self-Control Moderates the Effects of Habits on Complex but Not Simple Health Behaviors
Daniel Phipps

15:30 Identifying self-directed habit-promoting techniques for physical activity: A qualitative study
Eleonoora Hintsa

15:45 Temporal dynamics of habit decay: An intensive longitudinal study on four health-risk behaviors
Robert Edgren

16:00 Substituting an old commuting habit with a more active and sustainable commuting habit
Sally Di Maio

16:15 Discussion
Phillippa Lally

SOTA + Oral Session Advancing International Implementation Science Research and Practice

15:00 Facilitating adjustment to long term medical conditions: A bench to (almost) bedside story
Rona Moss-Morris

15:30 Development of the Guide to Disseminating Health Services Research (GuiDeR): An evidence-based framework
Debi Bhattacharya

15:42 How does tailoring work to produce successful implementation strategies?
Aoife O'Mahony

15:54 Co-developing an implementation stakeholder engagement toolkit to enhance the impact of behavioural sciences
Sebastian Potthoff

Oral Session Barriers, challenges and catastrophies

- 15:00 Unmet need for autism-aware sexual health care
Richard de Visser
- 15:12 Barriers and facilitators to cancer screening among people with intellectual disabilities: an accessible interview study
Katie Robb
- 15:24 Challenges in implementing a community-based participatory research approach between researchers and gender-diverse migrant communities
Hanne Zimmermann
- 15:36 Perceived barriers of flu vaccine uptake in ethnically diverse communities in North West England
Anna Powell
- 15:48 Experiences of People who Inject Drugs (PWID) during a flood: Stress, loss and moving on
Denise Blake
- 16:00 PSYCHOSOCIAL support needs of patients with breast cancer in a developing country: Where to start?
Buse Keskindag
- 16:12 Science, Art and Co-Design: Scripts and Films to Encourage Black Blood Donors
Eamonn Ferguson

Oral Session Fostering Workplace Well-Being and Engagement: Exploring Challenges and Strategies

- 15:00 European actions to support research on cancer survivors in work and employment : a strategy
Jerome Foucaud
- 15:12 Are the Impacts of chronic pain on engagement in work correctly reflected in current measures?
Anne Stagg
- 15:24 The Roles of Leadership Perceptions and Morale in the Well-Being of Canadian Armed Forces Members
Alla Skomorovsky
- 15:36 Event sampling of failure experiences at work: associations with self-conscious emotions, support-seeking, and self-reproach
Maria U. Kottwitz
- 15:48 Silence withdrawal from work: How and when does work intensification influence quiet quitting behaviours
Erasmus Keli Swanzy

Oral Session Health risk and promotion behaviors

- 15:00 Framing effect on infant feeding attitudes and intentions: Role of self-efficacy, emotions, and information acceptance
Margherita Guidetti
- 15:12 A paradigm shift from disease management to perception management of chlamydia infections
Daphne van Wees
- 15:24 How short video-based interventions promote vaccination intentions and trust: A comparison of empathetic communication techniques
Frederike Taubert
- 15:36 Covid-19 risk perception and prevention practices in a sample of French people affected by cancer
Arnaud SIMEONE
- 15:48 "Beyond COVID-19 soft communication skill": A Theoretical Domain Framework implementation analysis of LeadinCare digital platform
issari Philia
- 16:00 Co-design of a substance use intervention: Using a community based participatory approach
Karen McGuigan
- 16:12 Developing and evaluating behavioural science informed messaging promoting health services in local authorities
Abigail Millings

16:30 - 17:00 Coffee break and Networking

17:00 - 18:00 Keynote - Prof. Amanda Daley

18:00 - 19:00 Opening Ceremony

19:00 - 21:00 Welcome Reception

Wednesday, 04 Sep

9:00 - 10:00 Parallel Sessions

Lab Series Special Interest Group Meeting: Equity, Global Health & Sustainability
Chair: Gudrun Sproesser

9:00 Special Interest Group Meeting: Equity, Global Health & Sustainability
Gudrun Sproesser

Lab Series Promoting equality, diversity, and inclusion in health psychology research: Development of a practical guide
Chair: Michèle Denise Birtel and Laura König

9:00 Promoting equality, diversity, and inclusion in health psychology research: Development of a practical guide
Michèle Denise Birtel, Laura König, Joanna Semlyen

Roundtable (Im)practical health psychology: Successes, failures and everything in between.
Chair: Dominika Kwasnicka

9:00 (Im)practical health psychology: Successes, failures and everything in between
Dominika Kwasnicka, Stephan Dombrowski, Tracey Revenson, Keegan Knittle, Gill ten Hoor, Ainslea Cross, Sebastian Potthoff

Roundtable Beyond Boundaries: Strategies for Integrating LGBTQI+ Perspectives in Health Psychology Research
Chair: Thomas Gültzow

9:00 Beyond Boundaries: Strategies for Integrating LGBTQI+ Perspectives in Health Psychology Research
Thomas Gültzow, Udi Davidovich, Neil Coulson, Chantal den Daas, Chris Noone, Siobhan Thomas

Roundtable The Psychedelic Renaissance: Opportunities for behavior change and psychological well-being
Chair: Pedro Teixeira and Laura Cabral da Ponte Carvalho

9:00 The Psychedelic Renaissance: Opportunities for behavior change and psychological well-being
Talea Cornelius, Pedro Teixeira, Laura Cabral da Ponte Carvalho, Jorge Encantado, Pedro Rodrigues

Symposium Towards Personalizing Health: Multilevel, Multimethod applications of Psychological Flexibility as one driver of personalized well-being
Chair: Vasilis Vasiliou

9:00 Tackling societal harms: Network analyses of Psychological Flexibility "foci" processes for stigma in chronic illness
Vasilis Vasiliou

9:15 CARE project: Multimethod, multilevel, multidisciplinary approach for breast cancer patients using Acceptance and Commitment Therapy
Maria Karekla

9:30 Affect shift dynamics in the prediction of psychological flexibility and well-being
Pandelis Perakakis

9:45 Discussion
Susan Michie

Oral Session Beyond Behavior - Centered Approaches to Improve Health

- 9:00 Implementing a Spiritual Care Intervention in a Public Hospital in Chile: Barriers and Facilitators
Paula Repetto
- 9:07 Biopsychosocial Effects of Technology-enhanced Multidisciplinary Neurorehabilitation: Preliminary Longitudinal Multi-Sample Evidence
Francesco Zanatta
- 9:14 Comparison of CBT and MBCT in changing mood states and C.E.R among women with vaginal-cancer
Ameneh Sadat Kazemi
- 9:21 Cardiac rehabilitation and psychological treatments: differences in anxiety, depression, and illness perception levels
Alessandra Bigoni
- 9:28 Exploring Esoteric Practices as a Means of Coping with Health Issues: A Mixed-Methods Study
Natalia Antonova
- 9:35 Engaging in nonpharmaceutical interventions during an outbreak. What drives behaviour? A comprehensive systematic review
Sarah Gorissen

Oral Session Social media: friend or foe?

- 9:00 Coping with COVID-19 health messages on social media: Interviews with students with varying depressive symptoms
Spela Dolinsek
- 9:07 Social media use at work: Diary analysis of the impact on employees' work and health
Ann-Kathrin Sowa
- 9:14 TikToxic or TikDoc? A Qualitative Study about Adolescents' Social Media Use for Mental Health Complaints
Mieke Oldeman
- 9:21 Can social media reduce stigma towards people with visible differences ? A randomised controlled experiment
Abbi Mathews
- 9:28 The Roles of Social Media Information Exposure and Seeking in COVID-19 Vaccination: a longitudinal study
MEIQI XIN
- 9:35 SOCIAL MEDIA DYNAMICS IN PRE-HIKIKOMORI: EXPLORING PATTERNS AND POTENTIAL INTERVENTIONS
Jeff Gavin
- 9:42 Mapping digital food environment on social media
Kaiyang Qin

Oral Session Physiology, Somatic Processes and Health

- 9:00 Cortisol and subjective stress response to the (f-)TSST between sitting and standing body position
Miriam Kurz
- 9:07 Harnessing the flow: Movement and biofeedback as catalysts for self-efficacy
Malte Neubert
- 9:14 Longitudinal association between healthcare mistreatment, perceived discrimination, and metabolic syndrome among Chilean adults
Belén Salinas-Rehbein
- 9:21 Mental and somatic health as predictors of emotional, physical and cognitive exhaustion
Daniel Hagström
- 9:28 Emotions, interoception, dysfunctional breathing and symptoms in Multiple Sclerosis and Chronic Pain
Elke Vlemincx
- 9:35 Are continuous and intermittent low-energy diets for weight loss/ remission in type 2 diabetes acceptable?
Jo Brooks

10:00 - 11:00 Parallel Sessions

Lab Series MOST Lab: Discussing Health Psychology Innovation Through the Use of the Multiphase Optimization Strategy
Chair: Angela Pfammatter

10:00 MOST Lab: Discussing Health Psychology Innovation Through the Use of the Multiphase Optimization Strategy
Angela Pfammatter

Lab Series Stress and health behavior: Avenues for future research and collaboration
Chair: Jennifer Inauen

10:00 Stress and health behavior: Avenues for future research and collaboration
Jennifer Inauen

Roundtable Addressing humanity's existential crisis: How health psychology can accelerate climate change mitigation and adaptation
Chair: Guillaume Chevance

10:00 Addressing humanity's existential crisis: How health psychology can accelerate climate change mitigation and adaptation
Guillaume Chevance, Esther Papies, Claudia Teran-Escobar, Paquito Bernard, Vera Araújo-Soares

Roundtable Impacts of Generative AI on Health Services and Patients
Chair: Tilman Dingler

10:00 Impacts of Generative AI on Health Services and Patients
Tilman Dingler, Brian Oldenburg, Jan Keller, Lina Christin Brockmeier

Symposium Applications of the Behaviour Change Intervention Ontology in health psychology research: Case studies and reflections
Chair: Emma Norris

10:00 Identifying behaviour change characteristics within UK COVID television briefings using the Behaviour Change Techniques Ontology
Emma Norris

10:12 Interventions aiming to change multiple healthcare professional behaviors: A systematic review
Carolina C. Silva

10:24 Identifying BCTs of a multi-component intervention including pictorial communication about subclinical atherosclerosis using the BCIO
Elin Andersson

10:36 Discussion
Marta Marques

10:48 Activity
Marie Johnston

Symposium The use of mHealth for physical activity promotion in older adults: feasibility, inclusivity, and efficacy
Chair: Iris Maes

10:00 Introduction
Iris Maes

10:05 Older adults' experiences with self-regulation strategies used in mHealth intervention to improve physical activity
Fien De Block

10:19 Unveiling the digital pathways to active aging: an exploratory mixed methods study in older adults
Iris Maes

10:33 Feasibility and acceptability of a smartphone-based, activity-triggered Ecological Momentary Assessment study among low-income older adults
Olivia Malkowski

10:47 Discussion
Efrat Neter

Symposium Lessons from Covid-19 pandemic research: How to better prepare for future pandemics

Chair: Olivier Luminet

10:00 Examining cultural responsiveness of COVID-19 vaccination messages for Latino persons in the California Central Valley
Kyra Hamilton

10:12 Exploring intersectional inequalities in wellbeing during the COVID-19 pandemic: a longitudinal intersectional MAIHDA approach
Keenan Ramsey

10:24 Psychosocial and contextual determinants of protective behaviour during the COVID-19 pandemic: insights for future strategies
Nicole Stappers

10:36 The Role of Self-Compassion in Loneliness during the COVID-19 Pandemic
Robin Wollast

10:48 Discussion
Paul Norman

Oral Session Coping with chronic illness: Predictors and outcomes

10:00 Pragmatic acceptance: How cancer patients experience the wait to start their treatment
Sabina Canales

10:07 A qualitative exploration of lifestyle behaviour changes following breast cancer diagnosis and treatment
Lucy McGeagh

10:14 Views of cancer survivors living with obesity, on weight management and health behaviours: qualitative study
Kelly Lloyd

10:21 Investigating the Role of Gastrointestinal-specific anxiety and Disability in the Adjustment to Inflammatory Bowel Disease
Nuno Ferreira

10:28 The role of coping in quality of life in multiple sclerosis: A 9-year follow-up study
Pavol Mikula

10:35 Self-compassion, health-related quality of life and psychological wellbeing in individuals with endometriosis: A prospective study
Roeline Kuijer

10:42 Self-compassion and Psychological Distress in Chronic Illness: A Meta-analysis
Fuschia Sirois

10:49 Cardiac Distress: A case study in conceptualisation, measurement and translation into clinical practice
Alun Jackson

Oral Session Focus on behavioural determinants across the social, structural and policy level

10:00 Innovating smoking prevention through co-creation with adolescents and youth workers in social work organisations
Kenji Leta

10:07 Barriers to, and enablers of, physical education engagement among school students aged 6-16 years
Chiara Cimenti

10:14 Cross-lagged analyses of the effects of interpersonal communication, news consumption and trust on health behaviours
Saar Mollen

- 10:21 The influence of emotions and health information on healthier food shopping behaviour in a supermarket
Katrin Brückner
- 10:28 Sustainability in food-based dietary guidelines: a review of recommendations around meat and dairy consumption
Maddie Sinclair
- 10:35 Focus groups on stakeholders' needs and preferences regarding a genomic newborn screening program in Germany
Elena Sophia Doll
- 10:42 Voices in Co-Creation: Understanding Participant Experiences in Developing a Smoking Prevention Intervention
Babette Demeester
- 10:49 Work-in-progress: Measuring public acceptability of using Artificial Intelligence in a national Breast Screening Programme
Lauren Gattling

11:00 - 11:30 Coffee break and Networking

11:30 - 13:00 Parallel Sessions

Symposium Participatory and co-creation approaches: Their role in sustaining women's health
Chair: Irina Todorova

- 11:30 Patient and public involvement to reduce inequalities in breast cancer screening and early detection
Christina Derksen
- 11:45 Using participatory methods to achieve impact: A breastfeeding research case study
Amy Burton
- 12:00 Research engagement with underserved women
Ada Humphrey
- 12:15 Digital Stories as Participatory and Relational Inquiry in Cervical Cancer Prevention
Irina Todorova
- 12:30 Discussion
Adriana Baban
- 12:45 Activity
Gaby Judah

Symposium The Role of Social Relationships in Health Behaviors and Health
Chair: Patrick S. Höhener and Karolina Kolodziejczak

- 11:30 Social support in the daily lives of individuals with chronic low back pain
Karolina Kolodziejczak
- 11:45 Daily associations between support, emotion regulation, and eating among insecurely attached people
Monique Nakamura
- 12:00 Social environment determinants of physical activity in the family: group model building and system mapping
Anna Banik
- 12:15 Investigating Self-Efficacy and Intention as Mediators in the Relationship Between Social Support and Health Behaviors
Patrick Höhener
- 12:30 Does 'preference for self-reliance' moderate the effects of health-related social control?
Pascal Küng
- 12:45 Discussion
Alexander Rothman

Symposium Improving inclusivity in research and interventions for disadvantaged, marginalized and/or vulnerable people

Chair: Pepijn van Empelen

- 11:30 Migrant women's information seeking behavior and needs, concerning cervical cancer prevention: a scoping review
Tharsini Veeravagu
- 11:45 Colorectal cancer screening in people with intellectual disabilities: Exploring needs, facilitators, and barriers
Theresa Wagner
- 12:00 Digitizing communication of population cancer screening programs: An inclusive redesign
Zeena Harakeh
- 12:15 Needs of pregnant women with limited literacy skills for digital decision support about prenatal screening
Hilde van Keulen
- 12:30 Discussion
Pepijn van Empelen

Symposium Dynamics of Interoception, Emotion Regulation, Stress, and Psychopathology: Implications for Therapeutic Interventions

Chair: Christine Schillings

- 11:30 The Association between Subjective Interoceptive Attention and Accuracy and Psychopathological Symptom Burden
Carlos Ventura-Bort
- 11:45 Adolescents scoring on alexithymia exhibit altered interoceptive brain activity: a heartbeat-evoked potential (hep) study
Lorenz Rapp
- 12:00 Emotional and stress-eating in 800 healthy individuals using ecological momentary assessment: a secondary analysis
Matthias Aulbach
- 12:15 Dynamics of interoception when facing speech-induced stress: A work in progress
Lorena Desdentado
- 12:30 Discussion
Christine Schillings

SOTA + Oral Session Advancing and developing health behaviour theories, frameworks, and concepts

- 11:30 Redefining the Intention-Behavior Gap: A Multidimensional Difference Framework of the Intention-Behavior Gap
Darko Jekauc
- 12:00 Development of the Social Dimensions of Health Behavior Framework
Ryan Rhodes
- 12:12 Self-efficacy, Planning, Action Control: Exploring Health Behavior Mechanisms
Ralf Schwarzer
- 12:24 Trait self-control and social cognition predictors of health behaviour: A meta-analysis
Sabryna Sas

Oral Session Towards a Humanistic Approach to Healthcare

- 11:30 Targeting symptom mindsets: An intervention to improve adherence and persistence of methotrexate for autoimmune-inflammatory arthritis
Rachael Yelder
- 11:42 Compassionate Mind for the Long Road: Transforming Care through Self-Compassion in Diabetes
Aysenur Kilic
- 11:54 Patients' perceptions of SIGMA-informs in supporting parenting in mothers with cancer
Rita Tavares

- 12:06 The CareNet Project – a roadmap to psychosocial childhood cancer intervention
Cristina Camilo
- 12:18 Psychosocial interventions in the childhood cancer context: identification of guidelines and good practices
Jéssica Pimentel
- 12:30 Psychosocial Predictors of Doping Intentions and Use in Fitness and Sport: Systematic Review and Meta-Analysis
Nikos Ntoumanis
- 12:42 Psychological factors and eating behaviors using Ecological Momentary Assessment: An updated systematic review and meta-analysis
Pierre Gérain

Oral Session Adaptation to Chronic Illness

- 11:30 Mental Health and Quality of Life When Coping with Stigma of Visible Chronic Skin Disease
Caroline F. Z. Stuhlmann
- 11:42 Relationship experiences of couples following acquired brain injury during inpatient rehabilitation: a qualitative study
Dr Damian Aries
- 11:54 Alcohol consumption and its determinants among post-menopausal breast cancer survivors: a longitudinal observational study
Meeke Hoedjes
- 12:06 Mediators and moderators of symptom burden and distress in breast cancer survivors on hormone therapy
Sophie Fawson
- 12:18 Determinants of trajectories in WCRF/AICR recommendations adherence in breast cancer survivors with and without multimorbidity
Bo Brummel
- 12:30 Characterization of daily pain and symptom experiences in childhood cancer survivors with chronic pain
Nicole Alberts

Oral Session Behaviours and Health

- 11:30 The mechanisms through which social media exposure affects youth's mental health: a systematic review
Elida Sina
- 11:42 Social connections with family and friends in adolescence: Shaping BMI trajectories into young adulthood
Katie Taylor
- 11:54 Ask AI: How would chatbots respond to questions about eating, appearance, or weight from adolescents?
Emma Haycraft
- 12:06 The relation between physical activity and executive function in preschoolers
Anne Eppinger Ruiz de Zarate
- 12:18 Can Self-Control Mediate the Relationships Between Internet/Smartphone Addiction and Insomnia?
Marta Uva
- 12:30 Predictors and motives of physical activity for parent-child dyads: Baseline results of ProAct intervention
Eeva Kettunen
- 12:42 Internalized weight-bias, loneliness, and early-adolescents' mental health. Two-wave longitudinal investigation of emotional dysregulation as mediator
Alexandra S. Zancu

Oral Session Advances in digital behaviour change interventions

- 11:30 Trust and technology terrorism in Medicine: Health Psychology's role in the digital transformation of healthcare
Jane Walsh

- 11:42 Application-based exercise for healthcare workers: Secondary analyses examining multidimensional well-being
Vincent Gosselin Boucher
- 11:54 Lifestyle behaviour change and maintenance of patients following cardiac rehabilitation: the BENEFIT intervention study
Linda Breeman
- 12:06 Critical fluctuations as Early Warning Signals for Sudden Losses in Physical Activity: A replication Study
Alexandre Mazéas
- 12:18 Personalizing digital “just-in-time” nudges for healthier food choice: a randomized controlled trial
Nynke van der Laan
- 12:30 Text support for pregnancy smoking cessation (MiQuit): multi-trial analysis of potential effect moderators and mechanisms
Joanne Emery
- 12:42 Virtual Humans: Enhancing GP Training in Weight-Based Conversations
Triinu Zimmerman

13:00 - 14:30 Lunch, Network and EHPS Meetings

14:30 - 16:00 Parallel Sessions

Symposium Multisensory body perceptions and eating behaviour – mechanisms, assessment, and interventions

Chair: Annika Lutz

- 14:30 Psychometric validation of the English and French version of the Eating Disorder-specific Interoceptive Perception Questionnaire
Julie Ortmann
- 14:45 Unravelling the role of satiation perception in stress-induced eating
Miriam Kipping
- 15:00 Effects of a novel virtual reality gastric biofeedback intervention on disordered eating behaviour and interoception
Aline Tiemann
- 15:15 What Mediates The Relationship Between Emotion Regulation Difficulties, Disturbed Eating, And Body Dissatisfaction In Youth?
Verena M. Mueller
- 15:30 Cardiac modulation of visual body processing and body image distortion in anorexia nervosa
Lynn Erpelding
- 15:45 Investigating the effects of a cardio-visual full-body illusion on embodiment and body image
Fiammetta Zanetti

Symposium That’s what we’re talking about: Doing better science through practical and comprehensive construct definitions

Chair: Gjalt-Jorn Peters and Talea Cornelius

- 14:30 Introducing Comprehensive Construct Definitions: The Case of Self-Efficacy
Rik Crutzen
- 14:45 How we Measure Matters: Challenges in Evidence Synthesis across Theoretical Constructs
Talea Cornelius
- 15:00 Below the surface: ‘hidden’ heterogeneity when operationalizing cognitive and social activities in research and interventions
Jeroen Bruinsma
- 15:15 Mind measurement: systematically analyzing and advancing measurement using comprehensive construct definitions and narrative response models
Gjalt-Jorn Peters
- 15:30 Challenges and Obstacles When Working With a Decentralized Construct Taxonomy
Tjeerd de Zeeuw

15:45 Discussion
Geert Crombez

Symposium Individual and collective actions to improve environmental health
Chair: Josianne Kollmann and Jan Keller

14:30 School students' civic engagement for climate protection: Scale development and psychometric evaluation
Amelie Spliesgart

14:45 Effects and mechanisms of the Public Climate School: A climate education program for school students
Jan Keller

15:00 Reducing carbon footprints by fostering environmental health behavior: Randomized controlled trial of the GROW app
Jennifer Inauen

15:15 The impact of public participation on psychological ownership and acceptance of river restorations
Nadja Contzen

15:30 The role of psychological distance in the perception of microplastics pollution
Josianne Kollmann

15:45 Discussion
Claudia Teran Escobar

Symposium Kindness in Action: Social Support Provision and Its Impact on Health and Well-Being
Chair: Lisa Marie Warner and Ewa Gruszczynska

14:30 The potential of a mutually beneficial intervention: delivery of opportunistic behaviour change interventions by volunteers
Beth Nichol

14:45 Volunteering affects loneliness, social and mental health in older adults: Evidence from the HEAL-HOA dual-RCT
Lisa Marie Warner

15:00 Momentary effects of support provision on affective well-being: A role of basic needs fulfilment
Ewa Gruszczynska

15:15 The association between social support and well-being in partners of persons with a chronic illness
Evangelos Karademas

15:30 Does willingness to care and inclusion of other in self influence caregiver gains and wellbeing?
Val Morrison

15:45 Discussion
Molly Byrne

SOTA + Oral Session Bio-psych indicators

14:30 The protective roles of the vagal nerve in health and illness: Making diseases less "vague"
Yori Gidron

15:00 Does Heart Rate Variability Moderate the Relationship Between Social Anxiety and Emotion Recognition?
Ovidiu Bobei

15:12 Threats to social safety and neuro-inflammatory mechanisms underlying sexual orientation disparities in depression symptom severity
Richard Bränström

15:24 Changes in HRV in the Peripartum Predict Mothers' Depressive Symptoms 18 Months after Childbirth
Caterina Grano

15:36 Non-invasive vagus stimulation attenuates the work-related stress impacts
Serhii Tukaiev

Oral Session New frontiers in digital mental health

- 14:30 A feasibility study on the effects of an online dental anxiety peer support group
Caitlin Sorrell
- 14:42 Exploring experiences of social media in adults with visible differences: a photo-elicitation interview study
Ella Guest
- 14:54 A smartphone-based social media use intervention: Insights from a randomized controlled trial
Lina Christin Brockmeier
- 15:06 Examining the use of an online discussion forum for people living with dementia
Neil Coulson
- 15:18 Co-production of a decision aid to facilitate shared decision-making about technology-assisted mental health support
Lucia Rehackova
- 15:30 KindMap – an e-mental health tool for people facing infertility
Nair Carolino
- 15:42 Diet and fitness app use and eating disorder symptomology: A systematic review
Isabella Anderberg

Oral Session Child health & wellbeing: The role of risk and adversity

- 14:30 Childhood emotional abuse and binge watching: The role of vulnerable narcissism and emotion dysregulation
Daniilo Calaresi
- 14:42 Mental health service use and cumulative risk in the offspring of parents with affective disorders
Tiffany Resendes
- 14:54 Parental Chronic Illness and College Students' Adjustment: A Role-Balance Perspective
Cliff Yung-Chi Chen
- 15:06 Early Childhood Predictors of Psychological Resilience: A Mediation Model
IPEK SENKAL ERTURK
- 15:18 Effects of parental stigmatization and attributions of the child's illness on the parents' mental health
Matea Kramarić
- 15:30 Protective Factors for At-Risk Youth Exposed to Adversity
Caroline Heary
- 15:42 The role of psychosomatic symptoms on mental health and life satisfaction in Romanian adolescents
Diana Taut

Oral Session Caring experiences, social support and health in close relationships

- 14:30 How formal care complements informal caregiving: knowledge mapping through a scoping review
Elzbieta Bobrowicz-Campos
- 14:42 Mosaic: A website delivering peer support to cancer caregivers in a tailored, accessible written format
Christine Rini
- 14:54 Narrative Care Journey: Structuring the Experiential Paths of Acquired Brain Injury Patient - Caregiver Dyads
Mikolaj Zarzycki
- 15:06 Extrinsic emotion regulation and positive emotions in people with dementia and their family carers
Carmen Colclough
- 15:18 Couple communication in cancer: concurrent and predictive validity of a state measure of protective buffering
Shelby Langer
- 15:30 Motivations to start and continue with jogging groups: role of inclusivity, support, autonomy, and confidence
Gozde Ozakinci
- 15:42 Spousal Poor Sleep Quality Is Associated with Diet Quality Via Impaired Diet-Related Action Control
Jean-Philippe Gouin

Oral Session Behaviour Change Interventions across Health Behaviours

- 14:30 "Wine o'clock culture is so enabling": Coproduction of an alcohol reduction intervention for midlife women
Emma Davies
- 14:42 Behavior change techniques in face-to-face interventions promoting condom use among youth
Alcira de Vries
- 14:54 A scoping review of fidelity frameworks and models for complex health behaviour change interventions
Elaine Toomey
- 15:06 Effects of self-affirmation intervention on health behavior change: a systematic review and meta-analysis
Rui She
- 15:18 A mixed-method study on clothes shopping, body image, and eating disorder behaviours among Argentinian adolescents
Sharon Haywood
- 15:30 Overriding Poverty? Religiosity tilting towards enhanced health through health behaviors
Efrat Neter
- 15:42 The Social Extension of Health Mindset: Behavioral and Policy Associations
Kengthsagn Louis

16:00 - 17:00 Posters

Poster Session Serving the underserved and underprivileged

- The Impact of Neighborhood Deprivation on Psychological Distress in Europe: A Multilevel Analysis
Arieja Farugie
- Lessons Learned in Co-Production, Physical Activity and Mental Health: Do Social Barriers Need Social Models?
Emily Hillison
- Longitudinal Effectiveness of Place-based Intervention to Promote Healthy Living and Healthy Weight for Vulnerable Children
Jiyoung Park
- Social Support and Well-being in Transgender Individuals: Mattering and Internalized Transphobia as Mediators
Luca Ciucci
- Heavy drinking among Brazilian sexual minority women: A respondent-driven sample
Gabriela Manfron Pellissari
- Early childhood mental health: poverty, stress, and parenting in marginalized Roma communities
Daniela Filakovska Bobakova

Anna Martha Vaitses Fontanari

- 16:00 - 16:30 Coffee break and Networking
- 17:00 - 18:00 Keynote - Prof. Jeremy Grimshaw
- 18:00 - 19:00 EHSP Members Forum
- 19:00 - 21:00 EHPS Networks Social Activities

More details soon

Thursday, 05 Sep

9:00 - 10:00 Parallel Sessions

Roundtable Applying health psychology in non-academic settings: opportunities, benefits, and challenges

Chair: Lisa Hynes

9:00 Applying health psychology in non-academic settings: opportunities, benefits, and challenges

Roundtable Future paths towards a psychology of “social health behavior change”

Chair: Jutta Mata and Urte Scholz

9:00 Future paths towards a psychology of “social health behavior change”
Jutta Mata, Urte Scholz, Corina Berli, Alexander Rothman, Benjamin Schuez

Oral Session Risk perception and communication

9:00 A Multi-Level Meta-Analysis of the Relationship between Intrapartum Decision-Making and Postpartum Psychopathology
Louisa Arnold

9:07 Perceived benefits of health behaviours among cancer patients
Rachel Drbohlav Ollerton

9:14 Perception and awareness on alcohol as a cancer factor : results among regular French drinker
Anne-Fleur Guillemain

9:21 Breast cancer risk perception in sexual minority women: Associations with illness perception and psychological distress
Miguel Luis Alves de Souza

9:28 Psychosocial Barriers and Facilitators in Familial Hypercholesterolemia Genetic and Cascade Testing Uptake: A Systematic Review
Chaitanyasre Lenin

9:35 Disclosure of genetic risk in the family: Attitudes of the general Portuguese population
Iara Ribeiro

9:42 Charting the decision-making process in family disclosure of genetic risk: a multi-method prospective study
Maria Barbosa

9:49 Optimized psycho-oncological care – Identification of mentally distressed patients
Tanja Zimmermann

Oral Session Sustainable energy-balance related behaviours and energy use

9:00 Plant-based vs. animal proteins: Implicit and explicit measures, psychological predictors, and the role of sports
Maria Elide Vanutelli

9:07 An integrated TPB and VBN framework to understand plant-based meat consumption drivers
Raffaele Pasquariello

9:14 Baffling beliefs and disorienting dilemmas in sustainable healthy food choice change
Brid Bourke

9:21 What drives Italians to adhere to Mediterranean-Diet? The role of health, environment, and psychological distress
Elena Castellari

- 9:28 Barriers and facilitators for adopting sustainable food behaviors: A qualitative study amongst Dutch university students
Marijn Stok
- 9:35 ISCycle: Examining an ebike loan intervention on transport behaviour in an urban area in Ireland
James Green
- 9:42 Autonomous vs. Controlling Communications about Home Heating Consumption: Spillover to Energy-Saving and Health Intentions
Léo Toussard
- 9:49 Exploring the Hybrid Computational Decision Making Model Using Expert Opinion
Maud de Groot

Oral Session Evaluating well-being and behavioural interventions in context

- 9:00 Food for future: Implementing menu design strategies in a hospital menu
Julia Meis-Harris
- 9:07 Comparing individual and group-based approaches in promoting physical activity, physical health, and well-being: A meta-analysis
Cecilie Thøgersen-Ntoumani
- 9:14 Preventing Tiger Mosquito spreading through social mobilization : a field experiment
Nicolas Fieulaine
- 9:21 Self-test availability and modifications on test-strategy communication: an experimental vignette on COVID-19 testing policy
Colene Zomer
- 9:28 Effects of a school-based intervention for eating disorders mental health literacy in Chinese adolescents
Qiang Chen
- 9:35 Psychosocial and health impacts of COVID-19 isolation periods
Camille Léger
- 9:42 Disentangling the effect of WHO Self-help Plus on alleviating depressive symptoms
Jiaer LIN
- 9:49 Uptake of Patients with Mental Health Needs in Social Prescribing in Lisbon: A Mixed-methods approach
Louise Hoffmeister

Oral Session Chronic conditions: Prevention and treatment adherence

- 9:00 Do Theory of Planned Behaviour constructs change during adolescent alcohol onset?
Richard Cooke
- 9:07 Determinants of adherence to antihypertensives and statins: a survey study using the Theoretical Domains Framework
Gaby Judah
- 9:14 Cancer threat and efficacy of three preventive behaviors based on the Extended Parallel Process Model
Dorota Włodarczyk
- 9:21 Exploring mechanisms of physical activity change within the Movement as Medicine for CVD Prevention intervention
Keegan Knittle
- 9:28 Development of the Indonesian Capabilities, Opportunities, Motivations, Behaviour (COM-B) Questionnaire
Rina Rahmatika
- 9:35 Individual drives to cancer screening attendance: a novel instrument to assess motivations
Marcella Bianchi

Apostolos Efkarpidis
- 9:49 Self-Perception of Aging and Engagement in the context of chronic diseases
Fabrizio Mezza

Oral Session Job related stress and occupational well-being: Theory and practice

- 9:00 Longitudinal associations between psychosocial job dimensions and burnout/engagement: the role of stress mindset
Renato Pisanti
- 9:07 Burnout during the pandemic: A multiple-group longitudinal study of the Job Demands-Resources theory
Beata Basinska
- 9:14 PTSD and depression symptoms as the consequences of job-related stress among medical staff
Krystyna Golonka
- 9:21 The relationship between occupational stress and mental health in medical staff in Ukraine
Serhii Tukaiev
- 9:28 Depersonalization as emotion regulation mechanism among medical personnel in Poland
Dominika Fortuna
- 9:35 Work characteristics and work experience in medical staff in Portugal and Spain
João Miguel Alves Ferreira
- 9:42 Presenteeism among employees with chronic conditions: A scoping review
Henrike Schmitz
- 9:49 Occupational well-being and mountain therapy activities
Elisa Zambetti

Oral Session Smartphone app interventions: use, experiences and characteristics

- 9:00 Older adults' depression self-care via mobile apps: a systematic assessment of app characteristics and applicability
Ruoyu Yin
- 9:07 User engagement in nutrition apps
Sandra van der Haar
- 9:14 Leveraging Collective Intelligence in the design of an mHealth tool to support an anti-malaria intervention
Owen Harney
- 9:21 Commercial Smartphone Apps for Asthma Self-management: A Content Analysis and User Testing Study
Pamela Rackow
- 9:28 Exploring Dutch adult's experiences with mindfulness apps in a multidomain lifestyle program for brain health
Jasper Scholl
- 9:35 Distress and Wellbeing Effects of App-Based Cognitive Behavioral Stress Management in Cancer: Randomized Controlled Trial
Chloe Taub
- 9:42 Does outpatient follow-up through video-based value-oriented behavioural activation (ViVA) reduce fear of cancer recurrence?
Maren Reder

ECR Session Understanding and promotion health behaviours

- 9:00 Does Misestimation of Nutrient Contents Matter for (Un-)Healthy Diets?
Theresa J. S. Koch
- 9:07 Understanding engagement with dietary interventions in food-insecure communities: thematic analysis of barriers and facilitators
Abigail Stephen
- 9:14 License to eat meat? Exploring processes underlying the effect of animal labels on meat consumption
Jessica Schiller
- 9:21 Barriers and facilitators in the implementation of dietary guidelines by paediatricians and kindergarten teachers
Eva Dichiser
- 9:28 Exploratory Investigation of Sleep Hygiene Factors in a Non-Clinical Sample
Thomas McAlpine

- 9:35 Predicting health lifestyle behaviours in midlife women using machine learning with EMA and accelerometer data
Hana Sediva
- 9:42 Exploring ebike trips during a behaviour change intervention: a data-prompted interview study
Louise Foley
- 9:49 How childhood shapes us: Mediators between adverse childhood experiences and health behaviours. A systematic review
Seraina Petra Lerch

10:00 - 11:00 Parallel Sessions

Roundtable Think global, act local: Health psychologists' engagement in local impact-oriented sustainability projects Chair: Ira Elisa Herwig and Philipp Kadel

- 10:00 Think global, act local: Health psychologists' engagement in local impact-oriented sustainability projects
Ira Elisa Herwig, Philipp Kadel, Claudia Teran-Escobar, Jens Blechert, Nadja Contzen, Louise Foley, Julia Meis-Harris

Roundtable Protecting pluralism or committing to consensus? Risks and opportunities of ontologies in behavioral sciences Chair: Maya Braun

- 10:00 Protecting pluralism or committing to consensus? Risks and opportunities of ontologies in behavioral sciences

Oral Session Emerging technologies: virtual reality and chatbots

- 10:00 The effects of immersive virtual nature on psychological outcomes: Systematic review and meta-analysis
Rita Moura
- 10:07 The aiCARE chatbot: A Smart Tool for Mental Health Screening
Ioana Podina
- 10:14 From pixels to forest: A pilot study on effectiveness of virtual forest bathing
Dagmar Sztás
- 10:21 Developing and evaluating a chatbot for informed decision-making in National Health Service bowel cancer screening
Jazzine Smith
- 10:28 Detecting Social Anxiety in Dyadic Interactions in Social Virtual Reality (Social VR)
Marius Rubo
- 10:35 Chatbot ELME: The effects of a chatbot-based intervention on stress and health-related parameters
Christine Schillings
- 10:42 KImAge - AI-supported systematization of views on ageing in everyday life across the lifespan
Denise Künstler

Oral Session Global challenges in implementation and health service research and practice

- 10:00 Not by choice: A qualitative study of barriers and facilitators to effective mandatory rehabilitation treatment
Carolin Baur
- 10:07 Mapping the patient journey: Lessons learned from Life Grid Interviews
Natalia Duda
- 10:14 Identifying the underrecognition of childbirth-related post-traumatic stress disorder among the public and mental health professionals
Rotem Kahalon
- 10:21 Identifying psychosocial barriers and facilitators of genetic services uptake: A systematic review of qualitative studies
Phoebe Lim

- 10:28 Having a more compassionate doctor does not mean patients will feel more cared for
Nathan Consedine
- 10:35 Patients' perceptions of quality of care from public and private primary care providers in Singapore
Li Zi Leong
- 10:42 Systematic Review of Decision Fatigue in Medical Practice: Antecedents, Consequences, and Theoretical Perspectives
Serena Petrocchi
- 10:49 Barriers and enablers to screening and treatment for Hepatitis C among Egyptian immigrants in Canada
Sameh Mortazhejri

Oral Session Health and community

- 10:00 The relationship between sports practice and risk of eating disorders: a cross-sectional study
Martina Riolo
- 10:07 Understanding adolescent sexual and reproductive health stigma: psychometric analyses among adolescent mothers in South Africa
Zintle Mlomo
- 10:14 Characterising users of community-based interventions designed to improve the food practices of low-income populations
Oana Petre
- 10:21 Social-ecological stress, risk and health resilience in Mexican-origin adults living in a US-Mexico border community
Scott Carvajal
- 10:28 Dealing with Parental Migration: The Role of Emotional Intelligence and Reflective Processes
Khatuna Martskvishvili
- 10:35 Chronic pain and women with and without experience of intimate partner violence: work on progress
Ainara Nardi
- 10:42 Screening and mental health interventions for persons with physical disabilities in Cambodia
Alan Maddock
- 10:49 Exploring environmental effects on walking and mental well-being in epilepsy through qualitative walk-along interviews
Julie Delobelle

Oral Session Maintaining and managing wellbeing throughout the lifecourse

- 10:00 Cigarette dependence is greatest in people who start smoking young
Harry Tattan-Birch
- 10:07 Psychological and medical aspects of ichthyosis throughout life
Georgina Wren
- 10:14 Preventing dropout and distress at university: a study on the mediating role of academic engagement
Raffaella Passeggia
- 10:21 Will you get what expected? The effect of expectations of using social networks on well-being
Laimute Bulotaite
- 10:28 Stress, recovery and personal growth - the role of positive place experiences in micro niches
Tamas Martos
- 10:35 Trajectories of self-esteem and their association with weight 5 years following metabolic and bariatric surgery
Jessica Burdick
- 10:42 Social relationships, psychological distress, and health in sexual minority and heterosexual middle-aged and older adults
Theresa Pauly
- 10:49 Childhood emotional neglect and meaning in life: the role of self-perceptions
Fiorenza Giordano

Oral Session Eating and physical activity behaviours

- 10:07 Barriers to and enablers of dietary modification following metabolic/bariatric surgery: a systematic review
Reyhaneh Yousefi
- 10:14 Congruence between Reflexive-Reflective Processes in the Prediction of Unhealthy Snacking Behaviours
Nicholas Browning
- 10:21 The role of automatic-reflective affect on physical activity habits: does convergence matter?
Alison Divine
- 10:28 Predicting stress-induced eating behaviour using an integrated dual-process model
Jacob Keech
- 10:35 Older adults' capabilities, opportunities and motivation to change their sedentary behavior: a latent profile analysis
Laura Van de Velde
- 10:42 Physical Activity engagement in People with Type 1 Diabetes undergoing CSII Treatment
Manuel Ortiz
- 10:49 Enhancing intention to reduce meat consumption: The role of self- and social pro-environmental identities
Miriam Capasso

Oral Session Digital interventions to support mental health and wellbeing

- 10:00 Navigating change for occupational wellbeing: pediatricians' perspectives on telehomecare integration in an Italian pediatric hospital
Chiara Guglielmetti
- 10:07 Determinants of patient satisfaction with telemental health services: Representative cross-sectional evidence from Germany
Ariana Neumann
- 10:14 Efficacy of a digital sexual health intervention to promote genital self-image: An online experiment
Stefanie Gonin-Spahn
- 10:21 Rates and Predictors of Engagement and Attrition from Digital CBT for Insomnia: A meta-analysis
Alexander Scott
- 10:28 Language Patterns in Depression: A Closer Look at Offensive Language
Ana-Maria Bucur
- 10:35 Feasibility of personalized networks to improve an intervention to reduce or quit cannabis use
Alessandra Chiara Mansueto
- 10:42 In pursuit of closeness and social connection: digital solutions to combat loneliness
Sarah Wörner
- 10:49 Are digital health interventions in farmers effective in routine care? Longitudinal (post-intervention, 1-year) implementation results
Ingrid Titzler

ECR Session Managing health conditions

- 10:00 The effectiveness of digital behaviour change interventions for improving liver disease outcomes: A systematic review
Hollie Smith
- 10:07 A realist evaluation of a self-management intervention for people with low back pain using SelfBack
Madalina Jæger
- 10:14 A Qualitative study: How middle-aged women managed their long covid symptoms in the UK
Disa Collier
- 10:21 Relationship of personality with body image and pain coping strategies in orthopedic surgery patients
Katarzyna Brzezewska
- 10:28 'Stickiness': A framework integrating (in)flexibility, repetition, and fixation. Measure development and application to Chronic Pain
Laura Carter
- 10:35 A co-design study to refine oral health messages with women with recent gestational diabetes
Camilla Böhme Kristensen

10:42 User Preferences for an mHealth Intervention to Promote Physical Activity Among Adults Living with Asthma
Leanne Tyson

10:49 Behaviour Change Techniques for opioid reduction in Chronic Non-Cancer Pain in Primary Care
Andreia Ramos Silva

11:00 - 11:30 Coffee break and Networking

11:30 - 13:00 Parallel Sessions

Symposium Implications of othering for health and well-being: Understanding and reducing stigma and intergroup conflict

Chair: Sarah Stutterheim and Chantal den Daas

11:30 The Time-Lagged Impact of Microaggressions on Emotional Exhaustion amongst Transgender and Gender Diverse Employees
Daniel Cancela

11:45 The Brexit winner-loser gap and wellbeing: The roles of value inconsistency and intergroup dynamics
Michèle Denise Birtel

12:00 Mitigating Obesity Stigma through Avatar Embodiment: A Pilot Study Using Virtual Reality
Matilde Tassinari

12:15 Opening Up? Findings from an iterative usability test of a mental health disclosure decision aid
Thomas Gültzow

12:30 Shifting stigma: Dutch perspectives on stigma reduction and HIV cure strategies
Tamika Marcos

12:45 Discussion
Chantal den Daas

Symposium Better together? Social aspects in food decisions and diet-related health outcomes

Chair: Vanessa Knobl and Stephanie Zintel

11:30 Knowledge is healthy? Parental sugar, salt and fat estimation in foods and family health
Vanessa Knobl

11:45 Energy-dense food intake and physical activity changes after a planning intervention: a dyadic parent-child study
Aleksandra Luszczynska

12:00 Meat reduction among young adults in the transition to adulthood
Alice Grønhøj

12:15 Peer and Friend Influences on Young Adults' Meat and Plant-based Eating in Different Social Contexts
Maxine Sharps

12:30 Social embeddedness of healthy and sustainable eating: A social network study of parents and adult-children
Stephanie Zintel

12:45 Discussion
Jutta Mata

Symposium Computational modelling to enhance health psychology theories: Methods and applications

Chair: Olga Perski

11:30 Using computational modelling to understand pain-related avoidance
Maryna Alves

11:45 A sequential sampling approach to the integration of habits and goals
Chao Zhang

- 12:00 The participatory development of a computational model of smoking lapse and relapse
Olga Perski
- 12:15 SOCITS: a co-produced agent-based model of adolescent mental health
James Allen
- 12:30 Discussion
Jennifer Inauen

SOTA + Oral Session Input to policy formation

- 11:30 The value of health psychology in nationally implemented programmes to achieve behaviour change at scale
Rhiannon Hawkes
- 12:00 Understanding UK policy- and decision-makers' use of behavioural science advice during a public health emergency
Lisa Zhang
- 12:12 "For me, the ads are background noise": Inaction following Cancer Council's Find Cancer Early campaign
Chloe Maxwell-Smith
- 12:24 Process evaluation of a participatory developed school-based healthy sleep intervention in adolescents
Ann Vandendriessche
- 12:36 Paving the Way to PA: Factors that Influence Physical Activity among South Asian Immigrants
Sugandha Gupta

Oral Session Views by and on healthcare professionals

- 11:30 Examining perceptions of general practitioner traits and health behaviour change: A general population survey
Chris Keyworth
- 11:42 How do professionals use behaviour change strategies in improving their motivating styles? MotiStyleSport intervention study
Nelli Hankonen
- 11:54 Do patient-centered treatments of IDB patients lead to wellbeing through the therapeutic alliance and reassurance?
Talma Kushnir
- 12:06 Cognitive Impairment in Chronic Kidney Disease: an Occult Burden for provision of care and adjustment
Konstadina Griva
- 12:18 Barriers and facilitators of referral of overweight patients to combined lifestyle interventions: general practitioners' views
Bente van Aken
- 12:30 What drives success in long-lasting collaborations between health researchers and diverse ethnic communities?
Chris Noone
- 12:42 A critical exploration of the presentation of recovery capital across private and public recovery settings
Bella Kelly

Oral Session Health Trajectories Over Time: A Longitudinal Study

- 11:30 Typologies of individuals vulnerable to burnout and sleep-disturbance: a two-step cluster analysis
Anna Sundström
- 11:42 Can a brief online self-compassion writing intervention improve intra- and interpersonal outcomes?
Jane Cha
- 11:54 Childhood personality and adolescent performance in physical education: A sibling fixed-effects study
Eivind Ystrom
- 12:06 Investigating the time course of motivational processes relevant to dietary restraint
Kate Nicholls

- 12:18 Is the effect of Sensory Processing Sensitivity on physical and psychological distress mediated by resilience?
Veronique de Gucht
- 12:30 Early maladaptive schemas, illness representations, and distress in breast cancer patients
Spyridoula Karveli
- 12:42 Illness Perception and Distress in HCM Patients after Hybrid Cardiac Telerehabilitation - a randomised-control trial
Anna Mierzynska

Oral Session Innovative interventions to reduce painful conditions

- 11:30 The MyBack programme: design of a health intervention to prevent recurrences of low back pain
Susana Tinoco Duarte
- 11:42 Implementing the MyBack programme in primary care: implementation strategy design using the Behaviour Change Wheel
Eduardo Brazete Cruz
- 11:54 Enabling physiotherapists for the implementation of the MyBack programme: design of a training package
Carmen Caeiro
- 12:06 Co-designing a framework for communicating health messages to young people via social media
Melody Taba
- 12:18 Promoting medication adherence in hypertension: The role of Personas in tailoring eHealth technologies
Martina Vigore
- 12:30 Beyond sensors and alerts: smart wearables for diabetic foot ulcer prevention
Jenny Corser

Oral Session Digital approaches and new perspectives to improve health care systems

- 11:30 Implementing digital screening and treatment for distress in inflammatory bowel disease (IBD): Healthcare providers' perspective
Sophie Harding
- 11:42 Machine says yes, Doctor says no: A qualitative exploration of antibiotic prescribing in intensive care
Sarah-Jane Stewart
- 11:54 Measuring patients' return to work after breast cancer using electronic healthcare data: a mixed-methods study
Alexandra Dima
- 12:06 A systematic review on Blood Pressure Check behavioural influences among adults at-risk of developing hypertension
Alison. R McKinlay
- 12:18 Optimising antimicrobial stewardship education and training: a systematic review and strategic behavioural analysis
Fabiana Lorencatto
- 12:30 Are health services for patients with severe epilepsy meeting families' needs? Caregiver priorities for improvement
Lauren Kelada
- 12:42 Lengthy shifts and decision fatigue in out-of-hours primary care: a qualitative study
Mona Maier

Oral Session Using theory to understand and predict health behaviours

- 11:30 Exclusive Breastfeeding among Australian Mother-Father Dyads: An Extension of the Theory of Planned Behaviour
Barbara Mullan
- 11:42 Adherence to glaucoma management: The application of Health Belief Model
Mika Omori

- 11:54 Understanding the public's decision-making about seasonal flu vaccination: Application of the precaution adoption process model
Vivi Antonopoulou
- 12:06 What predicts mpox vaccination uptake among men who have sex with men? It's not intention...
Udi Davidovich
- 12:18 Testing HAPA model for predicting daily physical activity of women survivors of breast cancer
Margarida Sequeira
- 12:30 Exploring determinants of substitute decision-making for deceased organ donation: a theory-based qualitative study
Jacob Crawshaw
- 12:42 A Novel Sequenced Multiple Allocation Randomized Trial of Pharmacologic and Psychological Treatments for Binge-Eating Disorder
Carlos Grilo

13:00 - 14:30 Lunch and EHPS Annual General Meeting

14:30 - 16:00 Parallel Sessions

Symposium Developing, implementing and refining the evidence base for type 2 diabetes behaviour change and self-management

Chair: David French

- 14:30 Qualitative process analysis of the SuMMiT-D text message intervention for people with type 2 diabetes
Y Kiera Bartlett
- 14:45 Exploring fidelity and tailoring of improvement actions in diabetes care: The EQUIPD trial process evaluation
Elaine O'Halloran
- 15:00 Randomized controlled trial of an online program for people with diabetes with ACT therapy
Coline Hehn
- 15:15 Understanding factors influencing behaviour change maintenance after attending a type 2 diabetes structured education programme
Márcia Carvalho
- 15:30 The 'Healthy Living' nationally implemented type 2 diabetes self-management programme: User engagement and content exposure
David French
- 15:45 Discussion
Elaine Toomey

Symposium Beyond correlation: Making the case for experiments aimed at promoting healthy and sustainable lives

Chair: Marie Johnston and Chantal den Daas

- 14:30 When theory-based interventions don't work: explanations, and benefits of experimental pre-testing
Marie Johnston
- 14:45 Experimentally testing messages increasing bowel cancer screening
Chantal den Daas
- 15:00 Experimental studies to understand key mechanisms of digital psychological support for respiratory disease
Ben Ainsworth
- 15:15 How environmental justice values and sustainable behavior norms influence the sustainable food transition: Two experiments
Michelle Bal
- 15:30 Threat appraisal interventions in a climate change setting: two experiments on doom communication
Janna de Graaf
- 15:45 Discussion
Chantal den Daas

SOTA + Oral Session Eating behavior

- 14:30 Eating behavior: Beyond calories and health
Gudrun Sproesser
- 15:00 Adolescents' perceptions of their school food environment and the factors influencing their food choices
Anouk Mesch
- 15:12 Exploring forces shaping food choices beyond the micro-environment: unravelling systemic drivers of poor eating behaviors
Maartje Poelman
- 15:24 Driving dietary behaviour change for salt reduction to improve hypertension control in South Africa
Pamela Naidoo

Oral Session Understanding Self-regulation and Health Behaviors: Insights from Diverse Perspectives and Populations

- 14:30 The Multifaceted Illness Attributions of People with HIV
Konstantina Stavrogianni
- 14:42 Beliefs about antiretroviral therapy: Changes over time and associations with viral load suppression
Zoe Moon
- 14:54 Illness perceptions in adolescents with chronic diseases
Gloria Metzner
- 15:06 Mechanisms of mindfulness in health behaviours: Global pragmatic RCT of a digital mindfulness-based intervention
Masha Remskar
- 15:18 Consumers' perceptions of the effectiveness and feasibility of self-control strategies for reducing meat consumption
Alice Seffen
- 15:30 Test-Operate-Test-Exit? Examining the dynamic role of feedback loops in self-regulation with intensive longitudinal data
Christopher M. Jones

Oral Session Urban planning, policy and sustainable transport

- 14:30 Exploring socio-cognitive beliefs of sustainable transport in a general adult population using a CIBER approach
Ann DeSmet
- 14:42 Greencity4aging: healthy and active aging in sustainable cities
Sibila Marques
- 14:54 A Global Research and Action Agenda for Climate Change and Mental Health
Daniella Watson
- 15:06 Exploring the overview effect: Can observing earth from space in virtual reality stimulate pro-environmental actions?
Marijn Meijers
- 15:18 Daily relationship between air pollution, weather, and objectively-measured physical activity in industrial regions
Lenka Knapova
- 15:30 Understanding adolescent exposure to UV radiation: a psycho-socio-environmental approach
Charlotte Bauquier

Oral Session Exploring resources and challenges to positive mental and physical health

- 14:30 The impact of the cost-of-living crisis, self-efficacy and religiosity on quality-of-life in sickle cell disease
Judith Eberhardt
- 14:42 Bystanders reactions to excluding people with obesity at work
Paulina Idziak

- 14:54 Physical activity as a moderator of the association between alcohol consumption and hangovers
Laian Z. Najjar
- 15:06 Quality of life in patients with atrial fibrillation: an exploratory study
Ana Mónica Machado
- 15:18 Insights into Intimate Partner Violence: Validating the Hebrew Translation of the HITS Questionnaire
Daniel J.N. Weishut
- 15:30 Utilising qualitative research to support intervention development: Stigma amongst people living with/at risk of HIV
Craig Donnachie
- 15:42 Experiences of lung cancer and acceptability of community-based blood test recurrence monitoring: a qualitative study
Lorna McWilliams

Oral Session Gaining insight and understanding

- 14:30 Understanding lived experiences of LGBTQIA+ youth with appearance-affecting conditions or injuries
Emma Waite
- 14:42 Experiences regarding participation of people with limited health literacy: a qualitative study among researchers
Lies ter Beek
- 14:54 "Accept who you are": A qualitative study on how men foster positive body image
Latika Ahuja
- 15:06 Experiences of promoting Breast Cancer Screening Among Ethnic Minority Women: A UK Qualitative Study
Helen Morley
- 15:18 Understanding fitness professionals' weight biases and uptake of weight-inclusive practices: Findings from a mixed-methods survey
Jekaterina Schneider
- 15:30 Advancing Equality, Diversity, and Inclusion Considerations in Health Psychology Research
Joanna Semlyen

Oral Session Health psychology and ageing: The role of transitions and context

- 14:30 Adjusting to the role of caregiving for older-adults with TBI: Towards the development of support-tool
Guillaume Souesme
- 14:42 Cognitive Changes During Menopause Transition: Investigating Verbal and Visuo-spatial Working Memory
Prerita Chawla
- 14:54 A longitudinal analysis of neighborhood social vulnerability and cognitive function in older minoritized adults
Sandra P. Arevalo
- 15:06 Self-rated health in urban older adults: Examining predictive domains of city age-friendliness
Aija Ozola
- 15:18 Feasibility and acceptability of ecological momentary assessment in older adults with multimorbidity and depression
Irina Mindlis
- 15:25 Evaluation of a flourishing group program for older adults: preliminary findings
Ágnes Szabó
- 15:32 A home-based behaviour change service for older adults with mild frailty and cognitive impairment: RCT
Tasmin Rookes

Oral Session Stress and coping

- 14:30 Assessing Task-Related Changes in Self-Reported Stress: Validation of the Short Stress State Questionnaire in German
Veronika Ringgold

- 14:42 Emotional Exhaustion in Mental Health Professionals: Evidence for Compromized Psychophysiological Flexibility
Andreas Schwerdtfeger
- 14:54 Social support satisfaction is associated with elevated hair cortisol levels during the COVID-19 pandemic
Mark A Ellenbogen
- 15:06 Emotion processing and self-harm in young people (EMERGE) study
Rory O'Connor
- 15:18 Association of depression and inflammation in Inflammatory Bowel Disease (IBD)
Natasha Seaton
- 15:30 Are catastrophes opportunities? A Mindset Approach to Alleviating Depression and Inflammation in the Post-Pandemic Era
Lexi Straube
- 15:42 Longitudinal study on change in students' mental health and the influencing factors across the pandemic
Constance Karing

16:00 - 17:00 Posters

Poster Session Risk perception in health and healthcare

Health literacy, health-related behaviours and Self-Rated Health among migrants in Portugal
Ana Sá Machado

Do at-risk groups still feel the need to get a COVID-19 vaccination?
Annerike Gorter

Understanding the uncertainty of the future. Time horizon sensitivity in risk perception
Agnieszka Olchowska-Kotala

Challenging Assumptions: Reassessing Risk among Men who Have Sex with Men in Sexual Health Research
David James Field

Experiences of stigmatization and its impacts among individuals living with hereditary diseases: A mixed-method study
Joana Valentim

Dentists' perceptions of practicing patient-centred care: A qualitative exploration guided by the Theoretical Domains Framework
Paige Cunnington

Qualitative study on Slovak healthcare workers' responses to a patient safety incident
Lucia Kupkovicova

Perceptions of alcohol-related problems among social workers and their clients
Elina Renko

Need Analysis for Development of Trauma Informed Care Model for Veterinarians
SELIN ONAYLI

Using patients' experiences on their health and illness in education from students' perspective
Andrea Madarasova Geckova

Exploring Source Reliability in Influenza Vaccine Arguments and Inferences: An Experimental Study
Elisa Guidi

Unveiling the Association Between Information Sources and Young Adults' Attitudes and Concerns during COVID-19
Noemie Tremblay

Poster Session Coping with pain and symptom perception

Psychosocial variables impacting physical activity in biologics-treated rheumatoid arthritis patients
Alexandra Husivargova Theofanidis

Unique Physiological Response to Acute Pain among Patients with Chronic Pain and Opioid Use Disorder
Amy Wachholtz

The Highly Sensitive Brains: Analyzing Links Between Sensory Processing Sensitivity and Migraine-Type Headaches

Laura Šalčiūnaitė-Nikonovė

Childhood trauma, PTSD/CPTSD, and chronic pain: a systematic review

Maria KARIMOV-ZWIENENBERG

Accommodating the pain: A cross-sectional examination of chronic pain and academic performance among post-secondary students

Elisa Stragapede

The long-term use of nasal decongestants- an addictive health-risk-behaviour?

Carlotta Schild

Psychosocial factors associated with pain variability in individuals living with chronic low back pain

Gabrielle Pagé

Are chronic pain and obesity related? A qualitative investigation on patient perspectives

Constança Moniz Galvão

Irritable Bowel Syndrome: associations between female Quality of Life, symptom severity and emotion deregulation

Magdalena Mróz

Uncovering the (pain) chain: Psychological and behavioral mediators between interoceptive sensibility and chronic pain adjustment

Inês Oliveira

Poster Session Self-Regulation Concerning Disease and Health Behaviours

Self-management of inflammatory bowel disease patients: the role of autonomy support in health goal striving

Barbara Horvát

Snack smart: Unlocking the power of if-then planning in food perception

Rabia Dilawar

Inflammatory Bowel Disease patients' health goals - the role of dyadic coping and affective experiences

Kata Orbán

Influence of disease representation on fatigue perception in a french population of MS patients

Natacha Berle

A regulatory focus approach to understanding condom use among young adults in India

Prathyasha George

Adaptation and validation of a Spanish modified version of the "Goal Pursuit Questionnaire"

Lidia Pamies-Aubalat

The experience of social support in IBD patients' life space: an experience mapping qualitative study

Dorottya Biro

Rare diseases (ASMD): study of the determinants of therapeutic adherence, acceptance and shared medical decision

Aurelie Gauchet

Emotional regulation and executive functions in healthy adults

Tatjana Krstić

Identifying central cognitive complaints among dialysis patients and developing a short screener using network analysis

Frederick Chan

Perceptions and experiences of religiosity and spirituality in the COVID-19 pandemic in Brazil

Emma Godfrey

- 16:00 - 16:30 Coffee break and Networking
- 17:00 - 18:00 Keynote - Prof. Paschal Sheeran
- from 19:00 Conference Dinner

Friday, 06 Sep

9:00 - 10:00 Parallel Sessions

Symposium Social relationships and health: New contributions to a better understanding of daily health-relevant social processes

Chair: Andrea B. Horn

- 9:00 Couple and daily-level associations of self-regulation capacity with intra- and interpersonal well-being in romantic relationships
Tomasz Moschko
- 9:12 Interpersonal emotion regulation as a resource for daily affective wellbeing in young and old couples
Andrea B. Horn
- 9:24 Social support and well-being in breast cancer survivors on adjuvant endocrine therapy
Walter Bierbauer
- 9:36 Social Support as a Resource in Health Behavior Interventions
Lilly Buhr
- 9:48 Discussion
Urte Scholz

Symposium Beyond Labels: Understanding Stigma and Including Creative Interventions in Mental Health

Chair: Ana Beato

- 9:00 Mental health literacy in Spanish adolescents
Clara González
- 9:12 Stigma towards childhood mental health problems: Exploring effects of internalizing/externalizing behaviors, diagnostic labels, and gender
Sara Hagá
- 9:24 Mental Health Stigma Reduction: Unveiling the Impact of an Arts-Based Intervention with Youth
Leonor Pereira da Costa
- 9:36 Presentation
Tânia Gaspar
- 9:48 Discussion
Tânia Gaspar

Symposium Addressing Disparities in Pain Care: Perspectives for Inclusive Healthcare

Chair: Liesbet Goubert and Sónia Bernardes

- 9:00 The effect of gender and social context on pain
Edmund Keogh
- 9:12 Navigating Stigma and Illness Models in Fibromyalgia: A Qualitative Study
Liesbet Goubert
- 9:24 Patient-centered coaching to promote racial equity and shared decision-making in chronic pain care
Adam Hirsh
- 9:36 Discussion
Sónia Bernardes

Symposium Advances in Psychodermatology: From public perception of skin patients to behavioral patterns and interventions

Chair: Christina Schut and Jennifer Schmidt

- 9:00 Reducing stigma towards people with psoriasis in the general population: a video vignette study
Sylvia van Beugen
- 9:12 Trichotillomania and skin-picking disorder: Phenomenology and behavioral patterns in the daily life of affected individuals
Christina Gallinat
- 9:24 An online self-compassion dermatology intervention: investigation of affect, perfectionism and shame
Andrew Thompson
- 9:36 Do patients with chronic itch profit from psychological interventions? Preliminary results of a meta-analysis
Christina Schut
- 9:48 Discussion
Jennifer Schmidt

Oral Session Healthy Diets

- 9:00 Shaping health behaviors beyond reality: A full-body-illusion to experience the consequences of unhealthy snacking
Nadine van der Waal
- 9:07 Social identity moderates the effect of social norms on food choices in an online setting
Eva Kemps
- 9:14 How much is enough? The role of self-monitoring frequency in increasing fruit and vegetable intake
Alea Ruf
- 9:21 Interdependencies of vegetarian food choices: assessing the role of motivation and contextual factors
Lotte de Lint
- 9:28 Unlocking Food Safety: Message-Based Strategies to Promote Safe Behaviours in Young Adults
Michela Vezzoli
- 9:35 Understanding psychological predictors of successful health behaviour change in the dietary domain
Naomi Kakoschke
- 9:42 Unravelling mechanisms underlying Dutch secondary-school based food and nutrition programmes: determinants, BCTs and pedagogical approaches
Sanne Raghoobar

Oral Session Psychological Influences on Health Outcomes: Understanding Motivation, Behavior, and Adherence

- 9:00 The cognitive motivational aspects of herpes labialis
Shulamith Kreitler
- 9:07 Impact of psychological factors on the CHD: The mediating of physiological reactions and health-related behaviors
Hassan Ahadi
- 9:14 Individual differences in habit formation: Exploring the barriers and facilitators to medication adherence
Katlyn Mackenzie
- 9:21 External eating trajectories following metabolic and bariatric surgery: Associations with 5-year weight loss outcomes
Stephanie Oliverio
- 9:28 A qualitative study exploring the barriers and facilitators of the SARS-Cov2 Immunity & Reinfection Evaluation study
Atiya Kamal
- 9:35 Vaccination behavior is not homogenous: Role of irrationality and mistrust in the healthcare system
Ljiljana Lazarevic

- 9:42 Characterisation of network properties and complex vaccination behaviours
Angelos Kassianos
- 9:49 The Impact of Gender Role Expectations on Pain Experience: An Experimental Study
İrem Berna Güvenç

Oral Session Caregiving experiences and well-being

- 9:00 Assuming the role of informal caregiver of stroke survivors: experiences on adaptation and learning
Ana Moura
- 9:07 Understanding the experience of spouses facing the intermediate stage of Huntington's Disease
Nell Legras
- 9:14 Is the disclosure of Alzheimer's Disease an acute stress event for informal caregivers?
Cristina Festari
- 9:21 Unravelling the Pathways Between Purpose in Life and Depression Among Hemodialysis Caregivers
Helena Sousa
- 9:28 Co-designing a caregiver support intervention to optimize paediatric adherence to antiretroviral therapy (ART)
Bronwynne Coetzee
- 9:35 Look on the bright side: The relation between family values, positive and negative care experiences
Larissa Zwar

Oral Session Eating and physical activity goes digital

- 9:00 Empowering Sustainable Recovery: A Remote Support Toolkit for Eating Disorders
Claire Murphy-Morgan
- 9:07 Developing a digital lifestyle intervention for pregnant women using the Behaviour Change Wheel
Hanne Spelt
- 9:14 Digital Personalised Dietary Advice targeting low-SEP consumers
Meeke Ummels
- 9:21 Effects of technology-based physical activity interventions for women after bariatric surgery: preliminary findings of RCT
Meggy Hayotte
- 9:28 Navigating the Development of an Adaptive Digital Lifestyle Intervention for Patients: A Rapid Realist Review
Ana Coiciu
- 9:35 Motivation and confidence for consuming fruits and vegetables following a 12-week lifestyle intervention (ACCELERATION)
Florence Coulombe Raymond

10:00 - 11:00 Parallel Sessions

Roundtable Integrating temporal dynamics into health psychology theory and intervention development: An interactive discussion

Chair: Christopher M. Jones

- 10:00 Integrating temporal dynamics into health psychology theory and intervention development: An interactive discussion
Christopher M. Jones, Urte Scholz, Iris Maes, Matthias Aulbach, Dario Baretta, Jennifer Inauen

Roundtable HERITAGE of behaviour change: bridging the past to the future

Chair: Tugce Varol

- 10:00 HERITAGE of behaviour change: bridging the past to the future

Symposium Connections that heal: Innovative approaches to reduce loneliness

Chair: Sabrina Cipolletta and Lisa Marie Warner

- 10:00 Preventing falls together: Effects of a group-based exercise program on social and physical well-being
Greta Magdalena Steckhan
- 10:10 Loneliness and the exchange of social support in cancer patient-caregiver dyads: a temporal network approach
Aleksandra Kroemeke
- 10:20 Loneliness among young adults with cancer: A blueprint for intervention
Tracey Revenson
- 10:30 Comfort and Connection: A qualitative study exploring young adults' experiences using music for loneliness regulation
Jenny Groarke
- 10:40 Bridging the gap: Addressing loneliness through a blended group intervention for international college students
Sabrina Cipolletta
- 10:50 Discussion
Andrew Steptoe

Symposium Parenting and health: Social, biological, and psychological factors affecting mothers' and children's health and well-being
Chair: Yael Benyamini

- 10:00 Sources, experiences, and support needs for perinatal stress and anxiety
Karen Matvienko-Sikar
- 10:12 The body experience during pregnancy, childbirth, and breastfeeding, and their associations with mother-infant bonding
Yael Benyamini
- 10:24 A Critical Analysis of Baby Sleep Advice
Abigail Locke
- 10:36 Crossover effects of depression symptoms and sedentary behavior in mother-child dyads: A longitudinal study
Maria Siwa
- 10:48 Discussion
Yael Benyamini

Symposium The impact of social support, gender and racial disparities on experimental and clinical pain outcomes
Chair: Ann Meulders

- 10:00 Racial disparities in interpersonal pain perception: the role of attention
Dimitri Van Ryckeghem
- 10:12 Understanding experiences of gender diverse youth with pain: A critical step towards inclusive pain care
Lauren Harrison
- 10:24 Social support: A unique safety signal in pain-related fear and avoidance learning?
Ann Meulders
- 10:36 Profiles of romantic partners' responses to pain- and well-behaviors and chronic musculoskeletal pain adjustment
Sónia Bernardes
- 10:48 Discussion
Ann Meulders

Oral Session Measurement

- 10:00 How eating behavior is defined and operationalized in the field of health psychology
Angela Johnson
- 10:07 Examining how self-report measures capture engagement with digital health
Madison Milne-Ives

- 10:14 A co-constructed survey on how to better support patients undergoing metabolic and bariatric surgery
Annabelle Fortin
- 10:21 Do psychometrics 'matter'? Mixed methods study of applying advanced psychometrics in depression treatment trials
Frank Doyle
- 10:33 Older adults' compliance with mobile ecological momentary assessments in health behavior research: future recommendations
Sofie Compennolle
- 10:45 The (Mis-)Measure of Food Decisions
Maria Almudena Claassen

Oral Session Implementing better care for lifestyle-related diseases

- 10:00 Provider perspectives on the psychosocial impacts of lung cancer screening
Kathleen McFadden
- 10:07 Bowel cancer screening pathway in Ireland: How to improve patient colonoscopy experience?
Alice Le Bonniec
- 10:14 Shared decision-making models in cancer care: Systematic review and formal representation
Laura del Carpio
- 10:21 Advice after urgent suspected cancer referral when cancer is not found: survey of patients' preferences
Ruth Evans
- 10:28 Move to Improve: Co-designing a hospital-based physical activity program for children with chronic health conditions
Hamsini Sivaramakrishnan
- 10:35 Implementation of an exercise and behaviour change programme for Osteoarthritis (Split.OA) – a qualitative study
Daniela Costa
- 10:42 Optimising general practitioners' obesity-related clinical practices: from insight to intervention
Leona Ryan
- 10:49 Design preferences for diabetes audit and feedback in general practice: a qualitative study
Sheena McHugh

ECR Session Health professionals

- 10:00 Health professionals' experiences with integrated mental health care for people with congenital heart disease
Julia Baenziger
- 10:07 Vicarious Post-Traumatic Growth in health care professionals working in illness settings: systematic review
David Faggi
- 10:14 The end of assisted reproductive technologies treatment: a qualitative study on healthcare professionals
Federica Bonazza
- 10:28 Can continuous heart rate variability monitoring detect patterns of stress and recovery in medical doctors
Leia Kane

Jo-Anne Puddephatt
- 12:42 Intimate Partner Violence in Georgia: An Ecological systems analyses
Natia Mestvirishvili

Oral Session Sustainable diet

- 11:30 Psychosocial characteristics of consumers and their alternative protein choices intake: a meta-review
Hanna Zaleśkiewicz
- 11:42 Would priming be more effective for individuals with poorer executive function when choosing sustainable food?
Meijun Chen
- 11:54 Psychosocial predictors of downloading a smartphone app promoting healthy and sustainable eating
Valentina Carfora
- 12:06 Ignorance or Negligence? The Role of Nutritional and Environmental Considerations in Food Choice
Michelle Yang
- 12:18 Can environmental traffic light warning labels reduce meat meal selection? A randomised experimental study
Milica Vasiljevic
- 12:37 Ecological distress and coping in activists and non-activists: A qualitative study
Sinead Sheehan

Oral Session Policies and strategies to improve health

- 11:30 Food aid to food justice: The case for strategies that de-atomise and de-stigmatise older recipients
Leda Blackwood
- 11:42 Enhancing school-based nutrition-education programmes for special needs education – insights from a qualitative study
Marieke Battjes-Fries
- 11:54 Understanding the impact of social policies on health: a realist synthesis
Eline van Bennekorn
- 12:06 Policy makers' perspectives on alcohol public health interventions to reduce health inequalities: a qualitative study
Sarah Dance
- 12:18 The mechanisms underpinning the digital health divide: A Scoping Review of interventions for weight-related behaviours
Max Western
- 12:30 Patients' perspective on cancer care in Eastern Europe: experiencing disparities in the healthcare system
Veronica Coppini

Oral Session Advances in education to improve wellbeing and health (psychology)

- 11:30 Student experiences of health psychology in the US (STEP-US): A mixed methods study
Jenny Mc Sharry
- 11:42 Effects of a compassion focused intervention for teachers on indicators of psychological and biophysiological wellbeing
Marcela Matos
- 11:54 Self-compassion journaling to alleviate impostor syndrome: An online randomized controlled trial pilot
Karlijn Massar
- 12:06 Hope and dynamics in couples faced with their child's cancer: a dyadic phenomenological interpretative analysis
Laurine Milville
- 12:18 Parental profiles of fear of hypoglycemia and their associations of digital health technology use
Maria Dora Horvath
- 12:30 The Role of Basic Psychological Needs in Mediating Peripartum Depressive Symptoms among First-Time Mothers
Farideh Esmaeili
- 12:42 Caring for unsettled babies: qualitative studies exploring UK parent and primary care nurse perspectives
Samantha Hornsey

13:00 - 14:00 Lunch, Network and EHPS Meetings

14:00 - 15:00 Parallel Sessions

Roundtable When $1+1 \neq 2$: Challenges in the specification and measurement of dyadic mechanisms

Chair: Lisa Zhang and Nelli Hankonen

- 14:00 When $1+1 \neq 2$: Challenges in the specification and measurement of dyadic mechanisms
Talea Cornelius, Gertraud Stadler, Lisa Zhang, Nelli Hankonen, Aleksandra Luszczynska

Roundtable Personalizing digital health interventions: sharing and advancing best practices

Chair: Laura Winkens

- 14:00 Personalizing digital health interventions: sharing and advancing best practices
Laura Winkens, Monique Simons, Felix Naughton, Anouk Middelweerd, Olga Perski

Symposium Building bridges: closing the gap between behavioural sciences, epidemiology and infectious disease modelling

Chair: Daphne van Wees

- 14:00 How Quality of Motivation for Adhering to Public Health Measures Interplays with the COVID-19 Epidemiology
Joachim Waterschoot
- 14:12 Behavioural adaptation to health threats and authorities' recommendations in mathematical modelling: the example of mpox
Maria Xiridou
- 14:24 Unravelling the multidimensional interplay between individual and social determinants of vaccination behaviour
Alessia Melegaro
- 14:36 Developing and validating a framework for collecting and integrating behavioural data in transmission models
Ilja van Bergen
- 14:48 Discussion
Chantal den Daas

Symposium The Use of the Multiphase Optimization Strategy to Advance Interventions in Health Psychology

Chair: Angela Pfammatter

- 14:00 Optimising digital cardiac rehabilitation (OsCaR): the preparation phase of the Multiphase Optimization Strategy
Eanna Kenny
- 14:12 Applying the Multiphase Optimization Strategy (MOST) for optimizing cognitive behavioral therapy for insomnia (CBTI)
Robert Zachariae
- 14:24 Improving questionnaire response with SMS messages using a Sequential Multiple Assignment Randomised Trial (SMART) design
Samuel G. Smith
- 14:36 Adapting, optimizing and testing the Parenting for Lifelong Health Program: Results from all three phases
Heather Foran
- 14:48 Discussion
Molly Byrne

Symposium Interpersonal processes and health: advances in dyadic research applied to health psychology

Chair: Stephanie Alves and Raquel Pires

- 14:00 Trajectories of Relationship Satisfaction and Their Implications for Long-Term Well-Being
Michelle Roth

- 14:12 Coping with visual impairment together: relationships between stress communication, dyadic coping, and couples' psychological well-being
Stephanie Alves
- 14:24 Affairs of the heart: Couples coping with cardiac rehabilitation
Silvia Donato
- 14:36 Adoptive couples' congruence on mindful parenting: Exploring its implications for dyadic and individual health outcomes
Raquel Pires
- 14:48 Discussion
Stephanie Alves

Oral Session Digital support for chronic health conditions

- 14:00 Co-creating a digital wellbeing platform with young people who live with type 1 diabetes
Emma Berry
- 14:07 Medly Caretown: disruptive innovation in dyadic management of heart failure
Raima Lohani
- 14:14 Healthcare professionals' perspectives on digital tools to support cancer patients and their relatives
Ambre ITTOUCHENE
- 14:21 Patient's Role in Telemedicine: from Compliance to Engagement in Scientific Research Perspectives
Maria Adele Piccardo
- 14:28 Adapting COMPASS; a digital-CBT intervention for people with Multiple Sclerosis (MS) and co-morbid psychological distress
Emma Jenkinson
- 14:35 Digital transformation to enhance cancer psychological care: co-creating solutions for clinical processes and therapeutic interventions
Ainslea Cross
- 14:42 "Viver com Lúpus": A webapp development to promote adjustment to Systemic Lupus Erythematosus
Sofia Silva-Ribeiro

Oral Session Rethinking conceptualisations of wellbeing and health

- 14:00 Conceptualizing sleep satisfaction: a rapid review
Cleo Protogerou
- 14:07 The Stigmatization of Prolonged Grief Disorder and Disenfranchised Grief: A Vignette-Based Experimental Study
Ecem Sarper
- 14:14 A systematic review of the relationship between compassion for self and compassion for others
Ning Jia
- 14:21 "No pain, no gain" – Relationships between sport, mental health, self-esteem, and body image
Andrea Haberstroh
- 14:28 Acceptability of a Soft Skills Intervention in Higher Education: a Qualitative Approach
Gabriela Cortez-Vázquez
- 14:35 Movement, music and mood: Music contributes to mood benefits from physical activity
Indra Carey
- 14:42 Managing medications with a risk of dependence or withdrawal: the challenges for healthcare professionals
Jennifer Seddon

Oral Session Physical Activity Interventions

- 14:00 Effectiveness of booster sessions to promote physical activity maintenance: A systematic review and meta-analysis
Giampiero Tarantino
- 14:07 The effects of time and physical activity planning on reduction of sedentary behavior
Paulina Krzywicka

- 14:14 Physical activity plans in individuals with knee osteoarthritis: predictors of plan enactment
Noemi Lorbeer
- 14:21 Reducing sedentary behavior in parent-child dyads: Impact of three physical activity planning interventions
Zofia Szczuka
- 14:28 Effectiveness of Reinforced Implementation Intentions in Enhancing Physical Activity: A Randomized Controlled Trial
David Haag
- 14:35 Is habit-based advice effective? Comparing a habit-based intervention to behavioural monitoring alone
Phillippa Lally
- 14:42 The impact of a brisk walking intervention (APPROACH) on all movement behaviours: A compositional analysis
Susan Smith

ECR Session Emotions, Mental Health and Wellbeing

- 14:00 Students' emotional experiences with climate change and how universities can help
Chiara Hill-Harding
- 14:07 Feasibility and pilot study: Associations between dietary intake, mental health, and inflammation in Australian adolescents
Bridie Osman
- 14:14 The Impact of Social Support and Traditionalism on Help-Seeking Behavior: a Cross-Cultural Comparison
Anna Joy Russ
- 14:21 Stigma as a barrier to accessing support among female migrants in Southeast England: Qualitative study
Patrick Nyikavaranda
- 14:28 Job demands-resources, sedentary lifestyle, and physical activity: exploring their relationship with burnout?
Marieke Späh
- 14:35 Unraveling Emotion: Exploring Alexithymia in Elderly Individuals with Mild Cognitive Impairment
Giulia Marselli
- 14:42 Association of childhood and adult socioeconomic status with adult social relationships: A causal mediation analysis
Laura Cachón Alonso
- 14:49 Involvement of older adults in the UK in decision-making about care transitions: A narrative review
Lucia Halamova

15:00 - 16:00 Parallel Sessions

Roundtable How can we assess diversity across countries? Common ground and necessary adaptations

Chair: Gertraud (Turu) Stadler

- 15:00 How can we assess diversity across countries? Common ground and necessary adaptations
Gertraud (Turu) Stadler, Karolina Kolodziejczak, Thomas Gültzow, Yael Benyamini, Simona Quaglia, Marina Hinßen

Symposium Coping with severe COVID-19 and post-acute effects in Central and Eastern Europe: survivors' experiences

Chair: Anna Alexandrova-Karamanova and Peter Halama

- 15:00 Overcoming adversity: the severe COVID-19 illness experience
Aissa Suci
- 15:10 Subjective experience of severe COVID-19 patients during hospitalization – qualitative exploration in Slovakia
Peter Halama

- 15:20 Psychological functioning of severe or critical COVID-19 survivors in Poland - a qualitative study
Agnieszka Kruczek
- 15:30 Social support and long termed consequences of COVID-19: experiences of Croatian severe COVID-19 adult survivors
Anita Lauri Korajlija
- 15:40 Coping with severe COVID-19 and post COVID-19 condition: mobilizing personal resources
Anna Alexandrova-Karamanova
- 15:50 Discussion
Irina Todorova

Symposium Surf Therapy: Discovering health and wellbeing in the surf and sea
Chair: Phoebe George and Rachael Parker

- 15:00 Family Surfing Intervention for Children and Adolescents with Chronic Conditions: Effects on Health and Well-being
Joanna White
- 15:10 Improving youth physical and mental health outcomes with surf therapy: A randomized controlled trial
Lisa Olive
- 15:20 Living closer the beach is associated with better health and socialemotional development amongst preschool boys
Phoebe George
- 15:30 Wave by Wave: A case presentation and program logic
Ema Shaw Evangelist
- 15:40 Discussion
Rachael Parker
- 15:50 Activity
Ema Shaw Evangelista

Symposium The protein transition in the food environment: lessons learned and promising directions
Chair: Maartje Poelman

- 15:00 (M)eating together: The role of shared meals in individual meat consumption reduction
Ira Elisa Herwig
- 15:10 Effectiveness of a dynamic social norm message on meat-free food selection in cafeterias: an RCT
Elif Naz Coker
- 15:20 The effectiveness of a social norm intervention to encourage plant-based consumption: a quasi-experiment in supermarkets
Sofia Wolfswinkel
- 15:30 Cocreating healthy and sustainable food environment interventions with food outlet managers and consumers
Ward van Hoeven
- 15:40 Literature review on strategies towards a more plant-based diet - Individual and contextual differences
Muriel Verain
- 15:50 Activity
Sanne Raghoobar

Oral Session Social networks, social support, and health

- 15:00 Does attachment style moderate the link between multiple-group memberships and wellbeing?
Dan Frings
- 15:07 Not Without My Social Identity: Exploring Its Mediating Role Between Social Capital and Well-Being
Anahita Mehrpour
- 15:14 Sharing the Journey: Peer Support for Parents of Children with Complex Needs and Disability
Lhara Mullins

- 15:21 Romantic partners' social support for functional autonomy and dependence in chronic pain
Marta Matos
- 15:28 Social support, HIV care and stigma: effects on suicidality among young women living with HIV
Wylene Saal
- 15:35 The co-production of an animated video intervention to support the partners of bariatric surgery patients
Sophia Quirke-McFarlane
- 15:42 Providing Social Support and Health: first results of an RCT on healthy helping conditions
Vivien Hajak

Oral Session Child & family health and illness

- 15:00 Grief following Miscarriage: from Splitting to Integration
Milda Kukulskiené
- 15:07 A Novel Treatment Intervention for Youth Presenting with Anxiety: A Pilot Study in Canada
Everett McGuinty
- 15:14 Parenting experiences of mothers of autistic adolescents and their perceptions of mental health
Mariana Costa e Silva
- 15:21 Insights from adolescents and parents: how to communicate with 10-15-year-olds about eating and body weight
Florence Sheen
- 15:28 Self-regulation and relational processes in the home of parents raising children with chronic health conditions
Viola Sallay
- 15:35 CHILDREN'S CONCEPTS OF DISEASE, TREATMENT, PREVENTION AND VACCINES AFTER THE EXPERIENCE OF COVID19 PANDEMIC
Margarida Santos
- 15:42 Qualitative study on predictors of physical activity in inactive parent-child dyads
weldon green

Oral Session Behavior Change Interventions II

- 15:00 Effects of persuasive messages on compliance with behavioral measures to prevent spreading of respiratory viruses
Amy van der Heijden
- 15:07 A group-based intervention facilitates opioid-use reduction; IWOTCH as an application of the MAGI framework
Charles Abraham
- 15:14 Improving pandemic preparedness: comparing persuasive communication strategies to enhance pandemic preventive measures compliance
Anne Vos
- 15:21 Development and evaluation of a co-produced ACT-based intervention for parents/carers of children with appearance-affecting conditions
Maia Thornton
- 15:28 Reducing self-stigma in chronic skin disease - Development and pilot-test of the HautKompass online programme
Juliane Traxler
- 15:35 The rapid adaptation of a behaviour change intervention using existing evidence and behaviour change theory
Ella Howes
- 15:42 Behavioural mechanisms of a primary care intervention to proactively identify oropharyngeal dysphagia in older adults
Caroline Smith
- 15:49 Laughter intervention to prevent frailty in community-dwelling older adults: a randomized controlled trial
Mayumi Hirosaki

Oral Session Self-regulation in health and illness

- 15:00 Using word clouds to examine patients' perceptions of inflammatory arthritis
Chiara Gasteiger
- 15:07 Psychological distress and health behaviours in people living with and beyond cancer: a cross-sectional study
Natalie Ella Miller
- 15:14 Illness perceptions, medication beliefs and immunosuppression adherence in young adult kidney transplant recipients
Rosie Heape
- 15:21 Why Does Mindfulness Predict Self-Concordant Health Goal Setting? The Roles of Cognitive vs. Affective Self-Regulation
Ilona McNeill
- 15:28 Socio-economic status modulates the link between vagal tone and caloric intake
Mario Weick
- 15:35 "Oh, you've a sore tummy? Welcome to womanhood." Healthcare-Seeking Experiences of Women with Abdominal Pain
